BUYANTUGS "BUYA" LUVSANKHUU

Fairfield, IA (I can relocate) | 319-217-9113 | <u>buyantugs.luu@gmail.com</u> | <u>https://www.linkedin.com/in/buyantugs/</u>
Database & Data Specialist

SUMMARY

Highly accomplished professional with over 15 years of experience in coding, database design, development, integration, optimization, and maintenance across Telecommunication, Broadband, Media, and Fintech sectors. Expertise includes SQL, PL/SQL, T-SQL development, data modeling, ETL, query optimization, and system analysis. Proven track record in solutions design, systems integration, migrations, and change management, project management.

TECHNICAL SKILLS

Database: Oracle (11g, 12c, 19c), MySQL, MS-SQL Server (2012, 2014, 2016), PostgreSQL (v12), Oracle Data Guard, Data replication, CDC, Data Modeling, Data profiling, Data pipeline, SQL Tuning, Data Migration

NoSQL: MongoDB

SQL: PL/SQL, T-SQL, DDL, DML, procedure, function, materialized view, partitioning, with clause, merge, CTE, window

functions, recursion, trigger, job

ETL: Fivetran HVR, SSIS

Languages: Python, Pandas, Java, Bash Shell Scripting

Web: JavaScript, React

Web Services: RESTful, JSON, SOAP **Frameworks:** Node.JS, Express.JS

Platforms: Unix, Linux, Solaris, Windows Server

Cloud: AWS (EC2, S3, Lambda, RDS) **Methodology**: SDLC, Agile, ITIL, PMBOK

Tools: Toad, DBeaver, MySQL Workbench, SSMS, SSIS, SSRS, Crystal Reports, Business Objects, Power BI, Tableau, Oracle Database Developer, UltraEdit, Putty, MobaXterm, Intellij, VScode, Eclipse, MS Project, MindMap, EverNote, Git,

GitHub, KeePass, Jmeter, JIRA, Ansible, SFTP, ADDM, AWR, AHS

PROFESSIONAL EXPERIENCE

Senior Database Engineer

Mobicom Corporation LLC, Mongolia

04/2020 - 03/2023

Design and Architecture, Document, Development, Reporting, Integration, and Automation for IT solutions based on stakeholders' needs from start to end. Ensure all database systems meet business and performance requirements. Lead functional and cross-functional teams.

- Cleanup inactive subscriber's records from a large complex OLTP Oracle database, and reduced estimated data migration duration 6 times, and met migration plan deadline.
- Modernized database monitoring system and enabled 4 golden signals (Latency, Traffic, Errors Saturation) using SolarWinds tool, resulting in a Mean Time to Recovery KPI increase of 15%.
- Executed database migration from Oracle to PostgreSQL, achieving data type mapping and query compatibility, which contributed to a 5% reduction in annual operational expenses.
- Orchestrated the integration of a marketing campaign product service, using ETL (SSIS), FTP, and T-SQL procedures leading to a \$30K increase in monthly product sales revenue.
- Developed and integrated Mobile and Media streaming users' data using SSIS and SSRS, enhancing data analysis and reporting capabilities for a subsidy company.

Senior Database Developer

04/2014 - 03/2020

Mobicom Corporation LLC, Mongolia

Business requirement gathering, data modeling, development of ER diagram, stored procedures, functions, and other user-defined objects. Contribute to planned and unplanned projects and optimize and maintain existing database and data solutions.

- Implemented a Data Warehouse (DWH) system using the Oracle, SQL Server, ETL technologies, and Power-BI enabling near real-time sales and subscription reporting and reduced report generation time 10 times.
- Developed and integrated a new billing process for Media streaming customers using PL/SQL procedure, function, package, and database objects until the next system is available.

- Involved in a contact center system modernization project by Genesys product with T-SQL development, integrated existing CRM, CTI,IVR systems enabled skill-based call routing feature, reduced agent headcount seat 10%
- Implemented micro loan service database by MySQL database, enabling flexible loan service to market and achieved 200K subscribers in the first year.
- Automated time-consuming GUI operation activities using SQL Profiler, and re-engineering approach, reduced operation time 10 times.
- Implemented a sophisticated database-level auditing ticket system using PL/SQL, JavaScript, React, and Express.js to resolve audit compliance.

Project Senior Engineer,

04/2012 - 03/2014

Mobicom Corporation LLC, Mongolia

Conduct COTS systems (CRM, Billing, and Provisioning) implementation project from beginning to end.

- Collaborated with business units to gather requirements, incorporating them into RFP and RFQ documentation.
- Conducted a comprehensive evaluation of 9 vendors using a pair-wise approach and elaborated on short-listed proposals.
- Developed systems integration designs and solutions, managing data migration and system cutover planning with vendor engineers.

Database Administrator.

04/2008 - 03/2012

Mobicom Corporation LLC, Mongolia

Ensure large-scale core systems and databases support, maintenance, troubleshooting, root cause analysis, and ticket management. Installation and configuration, monitoring capacity management.

- Day-to-day view of complex core vendor systems up & running and resolve operation issues.
- Backup, recovery, restore systems and databases and work preventive maintenance activities.
- Optimize and tune system, database, and application server for effective system usage and DB performance.

Software developer,

06/2004 - 03/2008

Mobicom Corporation LLC, Mongolia

Develop internal and external products, promotions, and service automation.

- Developed SMS-based VAS service, improving customer engagement.
- Transitioned paper-based bill invoices to an efficient web application for branches, eliminating monthly paper waste.
- Implemented sales and financial reporting using .NET C#, Java, Shell scripting, enabling timely performance insights for departments.

EDUCATION

Fairfield, Iowa, US

Maharishi International University

2023

M.S in Computer Science,

Available for full-time, W-2 employment (In progress via distance education; expected completion 12/2025), Kev Courses: Web Application Programming, Modern Programming Practice, Algorithms

Ulaanbaatar, Mongolia

University of Science and Technology

2011

M.S in Information Systems

<u>Key courses</u>: Database management technology, Software project management, OOP, Research method of science Thesis topic: to improve the performance of large-scale database systems.

Ulaanbaatar, Mongolia

State University of Education

2004

B.S in Computer and Mathematics Science

Key Courses: Algebra, Calculus, Probability, Data Structure, Algorithm, DBMS

CERTIFICATIONS

Hacker Rank - SQL (Advanced) <u>certificate</u> AXELOS – ITIL v4 Foundation Certificate in IT Service Management

2023
